Read Me First — Briefing

Application pack for Bhumika V S · September 2027 intake · prepared 15 October 2026

What is in this pack

#	Document	Purpose	Status
01	University Shortlist & Financial Model	Four-programme portfolio, full cost model in € and ₹, funding gap, loan EMI table, scholarships, permits	Ready
02	One-page CV	ATS-optimised European/Irish format, XYZ bullets	Ready to upload
03	Statement of Purpose	Galway primary version + UL / DCU / Trinity swap kit	Ready; fill one optional sentence
04	Letters of Recommendation	Three referee drafts in distinct voices + referee briefing sheet	Referees must fill bracketed facts and approve
05	Master Timeline	Dated actions from 15 Oct 2026 to arrival, visa pack checklist, risk register	Ready

The strategy in five lines

1. **Do not repeat the MBA.** Skip the 17 UK "International Business" courses on the IDP list.
2. **Apply to:** Galway MSc International Accounting & Analytics (top academic fit) · UL MSc Insurance & Risk Management (most affordable) · DCU MSc International Accounting & Business (Dublin network) · Trinity or DCU Operations & Supply Chain (pivot/reach).
3. **Money:** at ₹110/€ the realistic all-in year costs about **₹40 L (UL)**, **₹44 L (Galway)** and **₹52 L+ (Dublin)**. Loan ₹30 L plus about ₹6.5 L savings covers UL, and covers Galway with a part-time or scholarship buffer. Dublin needs GOI-IES or an extra ₹10 L or more.
4. **Submit Galway and UL by 30 November 2026** and DCU by early December. Apply for GOI-IES in Jan–Mar 2027.
5. **Career:** Stamp 1G (24 months) → tax, regulatory-reporting or risk roles at €40–55k, which clear the employment permit thresholds (€36,605 GEP; €40,904 / €36,848 CSEP).

Corrections to the Gemini draft (do not reuse these claims)

The Gemini document had the right overall direction but contained **invented facts and outdated rules**. Admissions teams and visa officers check claims against references and documents, so a single fabricated number can sink an application.

Gemini claim	Problem	Fix used in this pack
"Mentored and onboarded **8+ junior analysts** … within the first two quarters"	Not in her CV, so invented	"Mentored junior associates … 15% accuracy uplift" (on record)
"Product **safety** and seller **verification** audits"	Not in her CV	"Seller, product and regulatory-risk reviews"
"**Shadow payroll, tax equalisation**" at EY	Not in her CV; an interviewer could probe it	Assignment initiation, repatriation, compensation tracking, statutory filings
"Python / SQL data auditing at EY"	Her CV lists Python and SQL as *basic* and does not link them to EY	"Basic Python/SQL for data validation"

Gemini claim	Problem	Fix used in this pack
B.Com "**First Class Distinction**"	Not stated on her documents	CGPA 8.43/10 (≈85%), which Galway's India guidance maps above the First-equivalent 75% line, subject to assessment
AICE "Ranked 600 **globally**"	It is a national Indian exam	"Rank 600 of 450,000 nationwide"
"**€36,605 critical skills** permit threshold for recent graduates"	Wrong permit type. €36,605 is the **General** Employment Permit standard rate.	GEP €36,605 / €34,009 (recent graduate); CSEP €40,904 / €36,848 (recent graduate)
"Register with **GNIB**"	Outdated name	IRP registration with Immigration Service Delivery / the local registration office
"GRE/GMAT waived **based on your experience**"	They are simply not required for these programmes	"Not required"
Amazon LOR: "**independently spearheaded** an RCA initiative"	Invented story	Letters use only on-record facts; referees add their own anecdotes
DCU IAB called a "strong academic fit" with no caveat	DCU markets DC526 as a **conversion** course for non-business graduates	Positioned honestly as a credential (ACCA/CAI exemptions) and Dublin-network play
"Multi-million-dollar regulatory breach" opening	Unverifiable drama	Opening grounded in her actual daily work
No mention of the Oct 2023 – Jul 2024 gap	Visible on her CV; visa officers ask about gaps	Optional SOP sentence + visa-pack gap explanation
Phase timing: GOI-IES "February submission"	The 2026 call opened 29 Jan and closed 12 Mar	Jan–Mar 2027 window (2027 dates to be confirmed)

About the "SOX Compliance" keyword

The brief asked for *SOX Compliance* as a CV keyword. Bhumika has **not** worked on SOX controls, and claiming it would fail a technical interview. The CV and SOP therefore use **SOX/COSO as a stated study goal** ("seeking specialisation in internal-control frameworks (SOX/COSO)"). The keyword still appears for ATS, and the claim is true. *Internal Controls, Platform Risk, Statutory Reporting, Root-Cause Analysis, Cross-Border Taxation, Data Integrity and Python/SQL* are all supported by her real experience and are used directly.

Open questions for Bhumika (answers will sharpen the pack)

1. **Gap Oct 2023 – Jul 2024:** what happened in those nine months? Fill the optional SOP sentence and the visa gap letter.
2. **Savings and family support:** is ₹5–8 L right? Is a parent available as co-applicant? Is there property for collateral? This decides whether Dublin is realistic.
3. **MBA specialisation and final-project title:** needed for Letter 2 (and adds one line to the CV).
4. **Transcript format:** do the B.Com and MBA transcripts show percentages (85% / 77.67% on her old CV) or only CGPA? Galway uses percentage thresholds.
5. **Referees:** names and official emails for the B.Com professor, MBA guide and Amazon manager.
6. **IELTS:** already taken? If not, book for early November.
7. **Preference:** accounting/tax (Galway, DCU) or risk/insurance (UL)? The SOP default is accounting analytics.

Figures were checked against official university, HEA, Irish Immigration and Department of Enterprise pages and 2026 Dublin salary guides as of October 2026. Re-confirm all 2027/28 fees, scholarships and visa rules before paying any money. This pack is planning guidance, not a guarantee of admission, funding, visa or employment.
